Essential Fatty Acids (GLA, EPA and DHA)	75 mg
Biotin	1,5 mg

Presentation

60 capsules per bottle

Storage Instructions

Store in a cool dry place at or below 25 °C, away from sunlight

Description

Redonyl® Ultra is a nutritional supplement that supports skin function in dogs with dermatosis and excessive loss of hair. Palmitoylethanolamide (PEA) is a naturally occurring bioactive compound which helps balance tissue homeostasis by controlling the mast cell functions. The ultra-micronised formulation of PEA (PEA-um) increases its bioavailability and bioactivity. In conjunction with essential fatty acids (GLA, EPA and DHA) and biotin (Vitamin H), PEA-um helps support optimal skin condition.

Warnings

- It is recommended that a veterinarian's opinion be sought before use.
- Keep out of reach of children, uninformed persons and animals
- Although this supplement has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek veterinary advice and notify the registration holder.

Directions for use:

USE ONLY AS DIRECTED

- Cut open the skittle capsule on the narrow side and squeeze the contents into the animals mouth or mix with food, alternatively the skittle capsule can be swallowed whole
